VOL III No. 60

BOWDEN ALBERTA, CAN. THURSDAY, JULY 4th 1912

\$1.00 PER YEAR

HOWARD & MORFITT BOWDEN

Wednesday, July 10th is our first coupon day. On that day we will redeem with merchandise, the coupons that we have given out with cash purchases during the past couple of weeks.

In addition to taking the coupons as cash we will give on this day and on all coupon days an additional ten per cent discount on all lines of merchandise except groceries

NOTICE
Next Wednesday
JULY 10th
Is our First
Coupon Day

A Cyclone struck Regina a few days ago doing a large amount of damage. We are going to have a little whirlwind in our store on Wednesday, July 10th. But it won't do any damage except to save you money, for we are going to get the rush of business--Extra 10 per cent. off.

All departments are well stocked with new and up to the minute merchandise. Why send your money out of town when you can do as well at home. You can't send your produce out of town and we take the same as the good old dollars and cents. Consider all these things and then deal where it

Local Jottings

Mr. Whitelock, living near Berrydale, has cut his fall rye and this crop proves to be one of the best in the district as well as being the first to be cut.

F. Luck's wife and family spent last week with their friends Mr. and Mrs. J. A. Cornish Broadview farm.

Miss, A. J. Campbell spent last week with Mrs. J. Cornish on her way to her home at Holland, Man.

R. Mc. Cue spent part of last week in Calgary on business.

H. Armitstead, B. Sc. and O. W. Chamberlain were in Edmonton last week.

Miss. Cameron is visiting in Calgary this week, spending part of her holidays.

Miss. Cora. Powell spent the week end in Calgary returning Tuesday.

Mr. and Mrs. P. Sheldrick spent Dominion Day in Calgary.

Dr. Washburn is having a telephone, installed in his residence this week.

Wednesday, July 10th is the first coupon day for Howard and Morfitt's Coupon advertising campaign

The ladies of the English church will serve pure ice cream and cake on the grounds of the Union Bank on Saturday, July 6 from 5 p. m. price 15 cents.

Lloyd, Jack has accepted a position in C. H. Payne's store during the holidays.

The Editor spent July 1st in Calgary, partly on business and partly on a visit to the fair. Every body expected him "never to return again."

Lloyd. Newsom who for the past three months has been employed on the staff of the Bowden News, left on July 1st for Calgary, where he will in future reside with his parents. He is greatly missed by the boy friends which he made while in Bowden.

Howard and Morfitt's ad on page one tells of their coupon day.

SAMPLE MARKET FOR GRAIN

How it Will Work Against the Best
Interests of the Farmers of the
Canadian Northwest

The efforts of the dealers in wheat and other grains to establish a sample market in Winnipeg are being made by men who desire and who appear to be determined to regain the control of the grain trade they held for many years, but which they have now lost. Selfish motives are the prime moving principle that govern all the steps they are now taking. Let us examine the true inwardness of the matter.

There are only about seventy-seven days from the time the crop commences to move, in the fall of the year, until the close of navigation at the head of the Lakes. The grain crop of Western Canada is taken from Fort William and shipped across the Great Lakes by boat to the eastern markets. After the close of navigation the grain grown in the west which has not gone across the Lakes by boat must necessarily go by rail routes to the Atlantic ports either around the north shore of Lake Superior or through the United States.

Under the proposed system of sampling, every carload of grain passing through Winnipeg on all the different lines of railway will be subject to a wait of twenty-four hours, except Sundays and holidays when the wait will be twice that long.

The plan of those in favor of a sample market is that when a carload of grain arrives in Winnipeg a sample is taken from it and sent up to the Grain Exchange and the grain disposed of on that sample. Immediately after it has been disposed of the railroad is notified and the car sent forward to its destination which may be East to Fort William, Eastern Ontario or the Maritime Provinces, or to points in the Western Provinces, where the grain is used for local consumption. Thus every car arriving in Winnipeg would have to remain in the railway yards until the grain was sold. This would mean a delay of at least one full day.

The delay in transit of cars arriving in Winnipeg on Saturdays would be much longer, as the samples taken from cars arriving at eleven o'clock or later on that day would not reach the grain exchange in order to be disposed of before it closed for that day, because on Saturdays the exchange closes at one o'clock. Therefore the samples from the cars arriving in Winnipeg at eleven o'clock and also every car arriving between that hour and the hour of opening of the grain exchange on Monday morning, would have to remain in Winnipeg until Monday evening. That is, on Monday afternoon the orders for forwarding of cars to their destination would begin to pour in to the railway companies, and all the cars which had arrived after eleven o'clock on Saturday morning would not start to move until late Monday afternoon.

It is of the first importance, in fact it is imperative, that cars should reach their destination and be unloaded without delay, and returned west for another shipment. Anything that would tend to prevent prompt unloading should be guarded against.

Such is the plain statement of the scheme of a sample market, as proposed by the Winnipeg Grain Exchange. As a specimen of presumptuous selfishness it has seldom been equalled. It is nothing short of a barefaced attempt to hold up the farmers of the West through the manipulation of their market, for the benefit of the dealers—the middlemen—who always try to get the lion's share of anything in sight. They are always on the spot, and want the opportunity a first choice affords them to glean just what they want. The remainder, not desired, is allowed to pass on to the Lakes.

The ring have rosy visions of fat commissions from Eastern millers, who cannot attend the sample market and get a first choice. The ring will be able to glean all the best grain in the sample market. The remainder will go forward and be sold by grade.

But the general market will be injured by the average quality of say, No. 1 Northern deteriorating in proportion to the quantity of the very best wheat which will be taken out of the whole crop on the sample market and the farmer will receive a less price on his crop.

French Birth Rate

According to statistics issued, the birthrate of France during the last year was more deplorable than ever, and the number of deaths exceeded the births by 34,869, representing that loss of population. The birthrate was the lowest ever recorded being only 742,114.

On the other hand, France compares favorably with her neighbors in the matter of marriages, which numbered 307,788, being rather more than in 1910. Divorces are increasing, the number last year being 13,058. Another interesting point is that France has more old people than any other country.

His Gain

Patient (a sportsman who has been badly peppered)—But hang it all, doctor, since the accident I've gained two pounds!

Doctor—Ah, but you forgot the amount of shot you received in your back.—Tatler.

MOONEY'S BISCUITS

BISCUITS MUST BE FRESH TO BE PALATABLE

MOONEY'S BISCUITS ARE THE FRESH BISCUITS

Fresh enough to take the place of the bread and biscuits you bake yourself.

Because the MOONEY system is so perfect that every biscuit is shipped the same day it leaves the oven.

The big Winnipeg factory is so close that your grocer gets MOONEY'S in a few hours—no long haul—no deterioration.

Besides the demand for MOONEY'S—the popular biscuit—is so great that his stock is always changing.

MOONEY'S never grow stale on the grocers' shelves.

That's one reason why

MOONEY'S PERFECTION SODA BISCUITS

are fresher, crispier and more appetizing.

Ask for the big package or a sealed tin and judge for yourself.

New Species of Elephant

The ancient proverb, "Always something new from Africa," receives fresh illustration from the reported discovery in that country of a new species of elephant. It is known to the natives as the water elephant, and a herd of five of them was seen on the shore of Lake Leopold II, by one of the explorers sent out by the Paris Museum of Natural History. Compared with the known elephants they seemed much smaller, with shorter trunks, longer necks and no tusks. Before more minute examination was possible the animals plunged into the lake. An account of this new discovery is given in *La Nature*.

Minard's Liniment, the Lumberman's Friend.

What He Wanted Him For

Mark Twain did not cherish a fondness for the average office boy. He had an idea that the genus was insufferable, and invariably when the humorist sallied forth into some business office there was immediate animosity between him and the boy.

One day Mark went to see a friend at his office, and the office boy on guard, in icy tones, said:

Whom do you wish to see?

Mark mentioned his friend's name.

What do you want to see him about? came next from the boy.

Mark Twain immediately froze up and then with a genial smile he said:

Tell him, please, I want to ask his hand in holy matrimony.

He (moralizing)—After all, man is weak. She (coyly)—In union there is strength.—Boston Transcript.

DOCTOR'S SHIFT

Now Gets Along Without It

A physician says: "Until last fall I used to eat meat for my breakfast and suffered with indigestion until the meat had passed from the stomach.

"Last fall I began the use of Grape-Nuts for breakfast and very soon found I could do without meat, for my body got all the nourishment necessary from the Grape-Nuts and since then I have not had any indigestion and am feeling better and have increased in weight.

"Since finding the benefit I derived from Grape-Nuts I have prescribed the food for all my patients suffering from indigestion or over-feeding and also for those recovering from disease where I want a food easy to take and certain to digest and which will not overtax the stomach.

"I always find the results I look for when I prescribe Grape-Nuts. For ethical reasons please omit my name." Name given by Canadian Postum Co., Windsor, Ont.

The reason for the wonderful amount of nutriment, and the easy digestion of Grape-Nuts is not hard to find.

In the first place, the starchy part of the wheat and barley goes through various processes of cooking, to perfectly change the starch into dextrose or grape-sugar, in which state it is ready to be easily absorbed by the body.

The parts in the wheat and barley which Nature can make use of for rebuilding brain and nerve centres are retained in this remarkable food, and thus the human body is supplied with the powerful strength producers, so easily noticed after one has eaten Grape-Nuts each day for a week or 10 days.

"There's a reason," and it is explained in the little book, "The Road to Wellville," in piggs.

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

BIG THEATRICAL STARS

At the Walker Theatre During Winnipeg Industrial Exhibition

For the two weeks beginning July 8th, in which are the dates of the Industrial Exhibition, July 10-20, at Winnipeg, the beautiful Walker Theatre will offer its patrons two very superior attractions. The first will be the well-known comedienne, Henrietta Crosman, in her most successful play, "The Real Thing," and the second attraction will be "The Spring Maid," which, on Thursday, July 11 will begin an engagement covering nine nights and three matinees.

Henrietta Crosman is one of the most magnetic and brilliant stars on the dramatic stage and her latest play, "The Real Thing" gives her exceptional opportunity to display her talents and charm. Her role is that of a bright and fascinating woman who saves her sister from developing into a dowdy and a drudge. Her little sister has let herself go after marriage and soon finds that her husband is seeking solace elsewhere. Jess Lorraine, however, takes the young sister in hand and establishes peace in the household. There is any amount of good, clean comedy in the story, and Miss Crosman may be trusted to bring it out in full force.

"The Spring Maid" is one of the big European and American light opera successes of the day. When it was presented in Winnipeg at the Walker Theatre early in the season just over, it scored tremendously, as it tells a delightful story, is full of clever dialogue, its music is sparkling and haunting, particularly the famous "Day Dreams" waltz, and it is lavishly staged. It will be presented at the Walker again during Fair Week by exactly the same company, including that wonderful fascinating and clever little prima donna comedienne, Mizzi Hajos. The only change in the cast will be the addition of Frank McNaughton, the celebrated English comedian, who will have the leading comedy role. There are seventy people in the company.

These two attractions, so widely different and so very superior, should afford ample entertainment to all visitors to the Winnipeg Exhibition who are out for good dramatic and musical fare.

Worms feed upon the vitality of children and endanger their lives. A simple and effective cure is Mother Graves' Worm Exterminator.

Provision for Deduction
Nation characteristics are suggested by this story.

A certain gentleman complained to three friends—an Englishman, a Scotchman, and an Irishman—that his servant broke a great deal of china.

The matter-of-fact Englishman gave the short bit of practical advice, Dismiss him.

Take it out of his wages, spoke the thrifty Scot.

Objection to that course was made on the ground that the wages were less than the amount of the damage.

The Irishman at once came to the rescue with, "Thin raise his wages."

Catarrh Cannot Be Cured

With LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and ordinary cure if you must take internal remedies. Hall's Catarrh Cure is the best internally, and acts directly upon the blood and mucous surfaces. Hall's Catarrh Cure is not a quack medicine. It was prescribed by one of the best physicians in the country for years and is a regular prescription. It is composed of the best known, known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing catarrh. Send for testimonials, free.

He Misunderstood Orders

Mistakes made over the telephone are sometimes as humorous as they are serious. One is told involving the suburban woman and her husband.

You know, she said, I wanted to persuade our hens to lay in the nests we had provided for them. So I telephoned my husband to bring home a couple of artificial eggs with him.

Well, and didn't he?

Didn't he? He brought home a pair of cork legs.

Ask for Minard's and Take no Other

Very Much Married

Waitress—Have another glass, sir?

Husband—(to his wife)—Shall I have another glass, Friedrike?

Wife—(to her mother)—Shall he have another, mother?

A maid was brushing her mistress' hair when she mentioned that she had heard Miss Evans sing in the parlor the night before.

And how did you like it? asked the mistress.

Oh, mum! answered the maid, it was beautiful! She sung just as if she was gargling!

Kill the Cut-Worm

Farmers at this season of the year should watch for the appearance of cut-worms, and should see no time in ridding their fields of this pest immediately upon their appearance. The following remedy is recommended by several agricultural departments:

Bran 100 pounds.

Paris green, dry, 1 pound.

Sugar, 2 to 3 pounds.

Mix thoroughly and dampen slightly with water and spread over the section where the worms appear.

Hon. Price Ellison, minister of Finance and Agriculture of British Columbia, has accepted an invitation to address the great international Dry-Farming Congress in Lethbridge, Alberta, October 21-26th, and he has notified the officers of the organization that he is making every effort to have one of the largest exhibits of fruits ever gathered in British Columbia to display to the great landowners in Chicago and New York after the Dry-Farmed Products Exposition at Lethbridge.

Oil of Cedar Wood

The demand for oil of cedar is very limited in England. Consul General Griffiths states that it is used principally in soapmaking. The current market price in London is 14 to 16 cents per pound when handled in one-quarter ton lots or more. The demand for cedar wood oil is said to be greater in France and Germany.

A Personal Affront

Striking members of the Amalgamated Skirt Stitchers were holding a conference.

Where is that tall, thin girl, who joined the union last week? enquired the walking delegate.

The secretary arose to reply—

She handed in her resignation this morning.

What was her reason?

She took offence when she was called on to act as a picket.—Judge.

You can never tell when a horse is going to develop a Curb, Splint, Spavin, Ringbone or a lameness. Yet it is bound to happen sooner or later. And you can't afford to keep him in the barn. Keep a bottle of Kendall's Spavin Cure.

And how did you like it? asked the mistress.

Oh, mum! answered the maid, it was beautiful! She sung just as if she was gargling!

Kendall's Spavin Cure

handy at all times. Mr. Brem, of Icelandic River, Man., writes:

"I have been using Kendall's Spavin Cure and find it safe and sure."

Get Kendall's Spavin Cure at any druggist's. \$1. per bottle—6 bottles for \$5.

THURSDAY, JULY 4, 1912

**Board of
Trade Meeting**

The regular meeting of the
Bowden Board of Trade called to
meet on Friday June 29th was
postponed until Tuesday evening
July 2nd.

The meeting was rather small in
attendance compared with what it
has been at former meetings. This
did not, however, interfere with
any business which the board had
to put through.

In the absence of Mr. T. B.
Rtley the minutes of the Board of
Trade were not on hand to be
read.

The first item of business to be
carried out was that of Mr. C. E.
Morfitt being instructed to pur-
chase five thousand sheets of wr-
iting paper, and furthermore that on
their arrival, they are to be taken
to the printer. Mr. Morfitt was
also appointed to draft out plan of
letterhead for the Board of Trade,
Bowden, also to get proof and sub-
mit same to Ex. Committee.

It was seconded by Mr. Rut-
ledge that the secretary be in-
structed to notify the members at
least three days before the regular
meeting.

A meeting of the Ex committee
was called for Friday evening July
5th. As no other business was on
hand the meeting was brought to
a close.

**L. I. D. 17-A-5
Meeting**

A meeting of the Council of
Local Improvement District 17-A-5
was held in WeCue's Hall on Mon-
day, 24th June, 1912.

Present, F. Giltiland, in chair.
C. L. Holmes' Lars, Jensen and
W. G. Whitlock.

Minutes of former meeting read
and on motion by councillors
Holmes and Whitlock was duly
approved.

The treasurer presented the fol-
lowing statement showing taxes
collected since last meeting.

Div. 1—\$51.20; Div. 2—146.80;
Div. 3—108; Div. 4—103.05; Total
409.05, which on motion by coun-
cillors Holmes and Jensen was ac-
cepted.

The treasurer called attention of
the Council to the fact that a con-
siderable amount of arrears of tax-
es were still unpaid especially in
townships 23-1-5 and 34-2-5 and
that a circular letter had been sent
to each party in arrears requesting
payment within 30 days. After
discussion on the matter it was
moved by councillors Giltiland and

CHAPTER XXIII

Betrayed

Denzil Warne drew two chairs forward and offering a cigar to Harry he lit another himself.

He was in one of the talkative moods rare to him, but in which he now and then indulged when he had a good listener of the male sex at this time of the day, when, with him, a stiff glass of whisky and soda had done duty for the feminine tea.

"Have you seen Lady Anne Daubene?" he began.

"Several times."

"What do you think of her?"

"She is very beautiful."

"But cold and distant in her manner, I suppose you thought?"

"More like an empress, certainly, than an everyday woman."

"That is the impression she always gives. But I assure you, as a girl, she had as much feeling as anyone."

Lady Anne has about three thousand a year in her own right. A trice, Mr. Claverworth, in the eyes of you American millionaires. But here in England it represents a good bit of capital. It was always my wish that my son should marry her. And I must say I was deeply disappointed when her father, Lord Newborough, placed her in the care of such a family as the Clavels. A rotten lot of Catholic spendthrifts, sir! a set of criminals and cutthroats, without even the sense to keep the property they were born to. A priest-ridden gang, spoiling the neighborhood by their vices and extravagances, the terror of every well-born man and every well-bred woman in the country, and—

"You were going to tell me something about Lady Anne Daubene, I believe," Harry said, interrupting him, with ill-concealed impatience.

Denzil Warne stared at him in astonishment. He was not accustomed to having his diatribes cut short. But his wish to talk overcame his resentment, and he proceeded.

"Look at that picture of my son, Mr. Claverworth. What do you think of it?"

"If the picture be a good likeness he must have been a splendid fellow."

"The picture is a libel. He was twenty-seven, the age when he was murdered, not only the handsomest lad in England, but the best shot, the finest rider to hounds, and the clear-headed man of business I have ever known. Every girl who met him fell in love with him. All, at least, except Lady Anne, and she was the only one he wanted."

"Yet she was being married to him?"

"You shall hear! My boy had asked her to marry him on every possible occasion, lying in wait for her when she rode or drove or walked. And she invariably refused him, to

Druggists and Stores everywhere

Zani-Buk

my immense disgust, for I had the marriage very much to heart, and I always feared lest she might fall into the clutches of that blackguard, Roger Clavel. His name was a byword in the neighborhood for his scandalous escapades. More than once I had sent to warn him that if I had the least chance I would get him locked up. And it was chiefly to spite me, I verily believe, that he set himself to persecute Anne Daubene."

"She detested him, did she not?"

"How could she help it? It was only for his badness that any woman liked him. My wife and I were getting so angry over her coldness to our boy that we were beginning to dissuade him from courting her. Then one bitterly cold night after dinner, I was sitting in the library, turning over some new books, when Lady Anne was announced.

"She came in her riding habit, shaking the snow from her hat, which she held in her hand.

"Mr. Warne," she said, "I have come to tell you that if your son Lucian asks me to marry him again, I will take him. I have quite made up my mind, and I could not go to bed without letting you know."

I asked her why she had changed her mind.

Because I am sure he is a good man and I am very fond of him, she answered.

It all came out afterwards that she did not dare to accept him before lest that madman, Roger Clavel, should murder him. That was in March, and the wedding-day was in June. The engagement was announced the next day, and Anne had to go and stay with friends in London because of the scenes Roger made until his parents turned him out of the house.

A girl who can ride ten miles through the snow to say 'yes' to the man she loves cannot be called cold, Mr. Claverworth.

No, indeed! Harry returned emphatically.

He fell into a brown study before the pictures, and barely listened while Denzil Warne recommended his favorite theme—abuse of the Clavel family.

Even during dinner Harry's thoughts were with Lady Anne. But for that hideous tragedy which had brought about the murder of Lucian Warne and of James Collet, and the quickly-following deaths from grief of Sir Alan Clavel and of Mrs. Warne and finally of the evil-doer himself, Lady Anne would now be ruling at Vale House as its mistress.

By Harry's side sat a beautiful young girl, all liveliness and sympathy and interest in him; yet he hardly saw her sparkling face, so busy were his thoughts with the image of another woman.

Dianer was at seven o'clock, and the carriage to drive Harry back to Crayborne had been ordered for nine o'clock. Denzil Warne adhered to the practice of getting rid of the ladies after dinner, and enjoying his cigar and his coffee and liqueur in the smoking-room which opened out of the dining-room.

Harry was such an excellent listener that he was beginning almost to like him. The coffee was served in some beautiful cups of old Saxe china, and Harry who was something of a judge of such things, expressed admiration for them.

He had the cup in his hand, and was examining it more closely, when his host, who was in the middle of a story about the cheap purchase of the service, stopped short, frowned, and settled his eyeglasses more firmly on his nose as he bent forward to scrutinize the hand of his guest.

Pardon me! he said abruptly, but do you mind telling me where you got that ring?

In an instant Harry realised what was coming. But his hand was steady as he put down the cup, and his voice was composed as he replied

From my father.

(To be Continued)

Relief from Asthma. Who can describe the complete relief from suffering which follows the use of Dr. J. D. Kellogg's Asthma Remedy? Who can express the feeling of joy that comes when its soft and gentle influence relieves the tightened, choking air tubes! It has made asthmatic affliction a thing of the past for thousands. It never fails. Good druggists everywhere have sold it for years.

ANTEDATES BABYLON

Arizona Relics Indicate a Very Ancient Civilization

Still another "oldest city in the world" has been discovered. When T. Hewitt Myring found vases in Peru in ruins which were said to be 7,000 years old it was imagined that the remains of early civilizations had been pushed as far into antiquity as they would ever go. But A. Lafave, a mining engineer, has found the relics of a town in an Arizona tableland near Phoenix, which he insists are at least 10,000 years old. The buildings are on a level stretch of country where neither silt nor wash was possible and yet the ruins were covered with ten feet of prairie dust which the discoverer claims required ages to accumulate.

The buildings of sandstone show great architectural skill and in the walls were found a box of cotton balls and a sealed jar of corn, both well preserved. The Arizona climate does not permit the growth of cotton in the present age, so Mr. Lafave assumes that sufficient time must have elapsed since the cotton which he found was grown to have wrought a complete change in the character of the country. This period he also gauges as something like 10,000 years.

He is satisfied that the ruins are older than those of Nineveh or Babylon. He believes that the race which built this town was possessed of a high civilization from the abundance of artistically wrought pottery and that it subsequently was broken up by internal dissensions and possibly degenerated into the cliff dwelling people.—Chicago Tribune.

Had Left His Glasses

He stumbled up the stairs and pushed open the door, says the New York American and stood confronting his wife, who held a telegram in one hand.

"Here's news," she said sternly, that has been waiting for you since 5 o'clock.

He braced himself against the hat-rack. Hic—I've left my glasses in town. Hic—

Well, I see you have brought home the contents.

ABSOLUTELY SAFE
FOR LITTLE ONES

Mrs. Nellie Steeves, Hill Grove, N.B., writes:—"I know Baby's Own Tablets are an absolutely safe medicine for little ones and they are the only medicine I would give a child without first consulting a doctor." The Tablets are guaranteed by a government analyst to be absolutely safe and free from opiates and narcotics and cannot possibly do harm—but always good. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

HUGE EQUIPMENT PROGRAMME PLANNED BY CANADIAN ROADS

Railways Have Made Large Appropriations for New Equipment, but Manufacturers Find Orders Exceed the Capacity of Their Plants.

Ottawa.—Reports made to the board of railway commissioners of Canada by the Canadian Pacific Grand Trunk, Canadian Northern and Great Northern Railways of new equipment ordered by them and now actually under construction, disclose a huge equipment programme. The figures given do not include equipment for which appropriations have been made, but not ordered because of difficulty in finding manufacturers, American or Canadian to undertake construction of new equipment in the near future. All of the roads represented state through their officials that they are in the market for much more equipment than that included in the figures here given, but that the Canadian shops are away behind in filling their orders, which far exceeds their capacity, and that similar conditions obtain among the United States manufacturers.

We have appropriated \$19,000,000 for new equipment, but cannot find manufacturers who will take our money, is the way General Manager Leonard of the Canadian Pacific puts it. The Canadian Pacific reports that it has the following under construction now:

11,593 box cars, of which 7,080 are being built at its own shops in Montreal; 2,000 at Hammond, Ind.; 2,000 at Hegewisch, Ill.; 513 at Detroit, and that all are to be delivered between now and October. It has under construction 665 stock cars, of which it is building 465 in Montreal and 200 have been ordered from Halifax; 244

refrigerator cars being built at Montreal; 411 coal cars at Montreal, 42 tank cars being built at Detroit and 158 cabooses being built at Montreal. It also has under construction 52 passenger locomotives, 120 freight locomotives and 35 switch locomotives at Montreal.

The Grand Trunk reported that it has under construction 2,000 box cars by the Canada Car and Foundry Co., at Montreal; 250 refrigerator cars at Amherst, N.S.; 1,000 box cars by the Western Steel Car and Foundry Co., at Hegewisch, Ill.; 1,000 coal cars by the Pierced Steel Car and Foundry Co.; 250 automobile cars by the American Car and Foundry Co., at Detroit; 250 refrigerator cars by the same company at its Chicago works, besides 10 passenger locomotives at its Montreal shops.

The Great Northern Railway Co. reports that it has under construction 25 locomotives at the Baldwin Locomotive Works, and 1,500 box, 250 refrigerator and 1,000 ore cars under construction by the Haskell and Barker Car Company.

The Canadian Northern reports that it has under construction 1,911 box cars and 132 flat cars and 61 locomotives, all being built in Canadian shops.

This road also reports a large number of new round houses and other improvements in the west now under construction. Reports have not been received from the numerous smaller roads, but it is estimated that as much more equipment has been ordered by them.

STRATHCONA NOT TO RETIRE

Aged, But Not Infirm, High Commissioner Out for Re-Election on H.B. Board

London.—Lord Strathcona is one of the members of the Hudson Bay board who retires by rotation this year.

There was expectation in some quarters that he might wish to leave the duties of governor to some younger hands but it is understood, however, that yielding to the desire of the whole board will offer himself for re-election at the forthcoming meeting.

Richard Burbridge who also retires will offer himself for re-election thus continuing the association of the company with the Harrods Stores of which Mr. Burbridge is managing director.

There is no confirmation here of the rumored resignation of Hubert Burbridge, sale commissioner at Winnipeg.

Sir William Whyte, George Galt, and A. M. Nanton of Winnipeg, have after much consideration, accepted service as the Canadian commissioner in an advisory capacity.

In order to retain the fur trade, despite the increasing competition, the Hudson's Bay Company is constructing new steamers for service in Athabasca and the Slave rivers.

The company also acquired a majority interest in the Nascope steamship company for Nlath and Labrador, the straits and Hudson bay posts.

The Crown authorities still have before them the new charter to provide means for additional capital expenditure on buildings at Calgary, Vancouver, Vernon, Kamloops and Vernon.

LEAVING FOR HUDSON BAY

Joseph Tyrrell and Prof. Stewart to Inspect New District

Toronto.—With a view of locating a harbor for Ontario at Port Nelson, Joseph B. Tyrrell, accompanied by Prof. L. B. Stewart, of the University of Toronto, who will act as surveyor and Ellis Thompson, the geologist will leave Toronto for Hudson Bay.

In order to decide upon the best location for the ten miles of shore granted the province by the Dominion Government it will be necessary to survey the entire estuary, which will necessitate a great amount of preliminary work, and, owing to this, no date could be set by the party as to their probable return. If possible a portion of the five-mile strip south from the Nelson River will also be surveyed.

BOOK ROOM FOR WEST

Alberta, Saskatchewan and Manitoba Request Branch House

Winnipeg.—At the Methodist conference which closed here a recommendation of the memorial committee was endorsed asking the general superintendent to call the western book committee at an early date and go into the whole matter of establishing a book room in the west similar to the ones now established in Toronto, Montreal and Halifax.

It is understood that both Saskatchewan and Alberta have made similar requests.

The conference which has just closed will always be memorable in view of the death of Principal Sparling of Wesley college during the sessions.

The meetings have been cordial and business-like throughout.

TWO COURSES FOR BRITAIN

In Naval Matters Supremacy Must be Kept at all Times or Lost Forever

London.—Lord Charles Beresford in a letter to the press strongly criticizes the policy of reducing the British naval strength in the Mediterranean and argues that the adoption of the programme which he submitted three years ago, estimated to cost \$640,000, would have prevented the present crisis.

Lord Charles said: "The government having apparently determined virtually to abandon the naval defence of the Mediterranean, what the nation must decide and decide quickly, is whether or not it will permit the weakening to the breaking point of what is the main link in the defence of the Empire.

He contends that the general strategical position has now as it objective either France or Russia, but another foreign power and that power alone.

He holds that the proposal that English responsibilities in the Mediterranean should be devolved upon France is a gross and palpable admission of weakness.

There are two courses open to the country; one is the maintenance of the naval supremacy of Great Britain; the alternative is to resign our naval supremacy, but give up the colonies of the Empire and rely upon the system of alliances which has always proved disastrous and which will prove equally fatal in the future.

The navy, he goes on to say, is under-manned, 20,000 short of the number of men required to place it on an effective footing.

The Daily Express announces a report whose source of information, it asserts are undoubtedly, that the government will alter its policy regarding the Mediterranean, having been convinced by Lord Kitchener's stand against the weakening of either the land or the sea forces.

WRITERS EXPLOIT NORTH

Will Attend 50th Anniversary of Bishop Grouard at Lesser Slave Lake

Edmonton.—Accompanying J. K. Cornwall, M.P.P., who has left on his annual tour of inspection of the Northern Navigation Company, are two well known Edmonton writers who will exploit the literary possibilities of the new settlement of the north.

The writers are Mrs. Arthur Murphy (Janey Canuck), and George B. Fraser, formerly of the Alberta Home- stead.

Mrs. Murphy will stay over at Grouard for the celebration to be held at that town on the shores of Lesser Slave Lake on June 29, on the occasion of the fiftieth anniversary of Bishop Grouard's ordination.

In the annals of the northern land the event will rank as one of the greatest historical interest in the development of the hinterland as synchronized with the career of the venerable bishop and missionary who has devoted his life to the promotion of civilization and the cause of his church on the frontier.

Many scores of Edmonton people and many sons of the church from all portions of the Dominion will congregate to do him honor on June 29 and among them will be Bishop Legat.

He (moral)—After all, man is weak. She (coyly)—In union there is strength.—Boston Transcript.

MONTREAL HARBOR CONGESTED

Elevators Are Loaded Up and Increased Accommodation Not Yet Available

Montreal.—Present indications are that the same conditions will prevail in the Montreal harbor as regards the grain congestion as last year. Although it is as yet very early in the season, the report comes from one of Montreal's largest transportation houses that the grain elevators are loaded up with grain, and the prospects are none too bright. It was supposed that the new elevator would overcome all the difficulties. It now seems, however, that this new elevator will not be in a position to handle grain until well on in the season.

The Montreal Transportation Company, which does an immense business in the handling of grain, at the present time has eleven boats, carrying half a million bushels of grain, waiting to be relieved. The elevators at Kingston are becoming overloaded, as a result of the insufficient facilities at Montreal's port, as the boats are unable to keep up to their schedule, owing to the delay here.

Central West to Benefit Most

Winnipeg, Man.—That the significance of the Panama Canal for the commercial interests of the Central West is gradually gaining recognition is indicated in a comprehensive write-up on this subject in the current issue of Winnipeg Once-A-Week. Among other things it is pointed out that even at the present time the Canadian prairies are exporting nearly 200,000 bushels of wheat yearly, and this in spite of the entire inadequacy of railway facilities to handle the available traffic. All this, says the correspondent, means much to Vancouver and to British Columbia; but it means far more to the Prairie Provinces—to their agricultural and industrial development—to the growth and expansion of their commercial centres—and consequently to the increasing importance of Winnipeg as a distributing centre for farm implements and every kind of manufactured product.

Jail for 20 Years

Moose Jaw, Sask.—When the notorious Erickson, of Tompkins, 40 miles west of Swift Current, stood in the dock to receive sentence for the manslaughter of his two and a half year old stepdaughter, the prisoner wilted under the withering lash of the justice, who sentenced him to the penitentiary for 20 years. His Lordship Chief Justice Wetmore said that it was the worst case in his judiciary career, and he had not even read of one for cruelty and horrible details to match with the present case. The tiny infant had been made the accused's football on all possible occasions, and for faults that no child was responsible for had to receive the most frightful punishment.

Mixed Farming Winning Recognition

Lethbridge, Alta.—In connection with the approaching dry-farming congress it is pointed out that a new interest is being created not merely in the problems of dry-farming, but almost equally in the prelated subjects of poultry raising and market gardening. As stated by M. C. Herner, of the Manitoba Agricultural College, poultry raising works in splendidly as a profitable branch of dry farming.

The market demands are practically unlimited, and the price of dressed poultry and eggs is sufficiently high at all times of the year to make poultry keeping a paying business, even when prices are lowest. The equipment required to operate a poultry department on a dry farm need not be large.

Cement Plant for West

Montreal.—A million dollar cement plant at Medicine Hat is under consideration by the Canada Cement company as a step toward meeting the demand for this commodity in the great west.

Nelson Spencer, mayor of Medicine Hat, was in town a few days ago. He stated that he made this trip east to confer with F. P. Jones, the general manager of the Canada Cement company, in regard to the proposed enterprise and said his visit had been so successful that as a result Mr. Jones would be in Medicine Hat about July 1 to get things started.

Big Shipment of Cattle

North Portal, Sask.—The second portion of the annual shipment of cattle for the Matador Land and Cattle company, consisting of 1061 head of cattle, passed through here recently. It required 28 cars to carry it and was destined for Waldrek, Sask., and are to be put on the companies ranch there. Mr. Somerville, their manager, was in charge. Inspector J. C. McMurtry journeyed to Harvey, N. D., and inspected them and so prevented delay at this point.

South Australian Wheat Crop

Adelaide.—The official returns of the last wheat harvest of South Australia give the crop at 20,352,000 bushels, and show that the area under cereals has increased by 200,000 acres. Considering the comparative dryness of the season, the yield is regarded as satisfactory.

Inland Revenue Increase

Ottawa.—Canada's inland revenue during May aggregated \$1,784,872, an increase of \$200,000 over the corresponding month last year. Revenues on liquor totalled \$26,759, and on tobacco, \$170,000.

CANADA FOR INVESTMENTS

Such Opportunities Not Offered Anywhere Else Declares Hon. W. T. White

Ottawa, Ont.—At the luncheon given by the Dominion government at the Chateau Laurier to the visiting British financial and business men, Hon. G. H. Perley, acting prime minister presided and proposed the toast of "Our guests" in a neat speech of welcome.

Sir Wilfrid Laurier in seconding the toast referred to the inauguration of the British preference fifteen years ago. He expressed regret that visitors of this kind had not been commenced earlier for he was certain it would bear fruit. If full advantage had not been taken of the Canadian preference, Canadians were not to blame. He hoped that the present trip was an evidence that the British manufacturers have commenced to realize how great are their opportunities in Canada.

Hon. W. T. White, in replying to a toast to the Dominion told the visitors that Canada's total trade this year will pass the billion mark, while immigration figures will exceed half a million. He assured them on his responsibility as minister of finance that while occasionally bad investments have been made in Canada, there is no country in the world where the opportunity for profitable investment is so good.

Mr. White expressed the firm conviction that many of these present would live to see Canada's population exceed the present population of the British Isles.

BACK TO CANADA

Over 100 Families Leave East in First Colonist Train of Kind

Manchester, N.H.—Nearly five hundred New Englanders representing over one hundred families in Massachusetts and New Hampshire leave here on June 26 for the Canadian North west never to return.

This is the first colonist train from New England in the "back-to-Canada" movement, recently instituted by the Canadian Government.

The train will go direct to Prince Albert, Sask., and from that city the colonists will be sent to various towns in Saskatchewan, Alberta and points farther West. Amene Cleroux, lecturer for the department of the interior at Ottawa, will be in charge of the colonists.

They will represent prosperous families in Deerick, Manchester, Hooksett, Suncook, Concord, Franklin, Laconia and other New Hampshire cities.

SEEK PRAIRIE MARKETS

Ontario Government Will Aid Fruit Growers of Province

Toronto.—No time will be lost by the Ontario department of agriculture in arranging to keep Ontario fruit growers posted concerning the prairie markets. "It is the expectation to appoint a man this summer" said W. B. Roadhouse, deputy minister of agriculture. "He will look up markets, keep in touch with conditions, and keep in touch with the shippers at this end."

THREE EMPERORS TO MEET

George, Nicholas and William to Settle on Policy of Peace

St. Petersburg.—Czar Nicholas is preparing another important pronouncement on world peace. It is understood that it will be issued to the powers after the conference of the three emperors, which semi-officially announcement says will take place in July or August at Kiel. The Kaiser, King George of England and the Czar of Russia meeting to discuss as the heads of the three most powerful modern empires, a basis of lasting peace, will give an event to history more famous possibly than the meeting of the three emperors a century ago which emphasized only a pause in the European war.

To Represent Ontario in the West

Toronto.—The appointment of a man to represent Ontario in the west and keep the fruit growers advised of the state of the market is engaging the attention of the department of agriculture, and the announcement was made that such an official would be appointed. Following the lead of British Columbia which has a man in Winnipeg, Ontario will have one on hand this season.

Million for Double Tracking

Vancouver, B.C.—It is announced that the Great Northern had appropriated \$1,000,000 to build double tracks between Vancouver and Westminster, 12 miles. It is practically certain that over this line the Canadian Northern will make its entry into Vancouver.

Winter Wheat in Alberta

Lethbridge, Alta.—Precipitation to date has been eighty inches this month. Grain is progressing favorably all over the south. In Spring Coulee and Cardston districts winter wheat will be in head this week and should be ready for cutting about the last week of July.

Crystal Palace May be Gift to Empire

London.—Several boroughs surrounding London concur in the proposition that the Crystal Palace should constitute London's gift to the empire, the maintenance to be defrayed by the imperial and Dominion parliaments.

THE SUNDAY SCHOOL

LESSON XIII.—SECOND QUARTER, FOR JUNE 30, 1912

Text of the Lesson, Comprehensive Quarterly Review—Golden Text, Matt. v. 17.—Commentary Prepared by Rev. D. M. Stearns.

Lesson I.—The appearances of the risen Lord, 1 Cor. xv. 1-11. Golden Text, Acts II. 32, "This Jesus hath God raised up, whereof we are all witnesses." Always emphasize the gospel as set forth in this lesson and remember that everything depends on a risen living Christ, the same Jesus who lived on earth as a poor man, now at the right hand of God in the place of all power and still a real man, the Son of Man, waiting for the time to return and bring His kingdom.

Lesson II.—The use of the Sabbath Mark II. 23 to III. 6. Golden Text, Mark II. 27. "The Sabbath was made for man and not man for the Sabbath." Consider the darling pride of man in judging the Lord of the Sabbath for using His own Sabbath, but they knew Him not and judged Him to be a mere man like themselves, yet a great teacher. He made so manifest their hypocrisy and formality and religious pride that they determined to kill Him.

Lesson III.—The appointment of the twelve, Mark III. 7-19. Golden Text, John xv. 16. R.V., "Ye did not choose me, but I chose you and appointed you," that ye should go and bear fruit." Mark the words, "Unto Him with Him, that He might send them forth to preach and to have power" (verse 13-15). He Himself is the great and only center, and apart from Him there is no fruit nor service nor anything worth mentioning.

Lesson IV.—The beatitudes, Matt. v. 1-2. Golden Text, Matt. v. 8. "Blessed are the pure in heart, for they shall see God." What a blessed time it will be on the whole earth when the principles of this sermon are lived out. Meanwhile, as heirs of the kingdom we should manifest these principles in our daily life, true poverty of spirit being the foundation of all, such a self renunciation that He may be seen in us.

Prize Winning B. C. Fruit Lands

OWN a five acre fruit and poultry tract (or more) in British Columbia and be independent for life. \$20 down and \$10 a month pays for it. No interest and payments extended in case of sickness. From \$500 to \$1,500 per acre realized by ranchers in this famous prize-winning district, the Main Kootenay Lake. Ideal climatic conditions, no rainy seasons as on the coast; no dry season or irrigation needed as in the Okanagan and Cranbrook districts. See Government reports. The main lake never freezes over and boats run the year around — see reports of other districts. I spent years in finding this ideal spot; I live there myself. I call my own fruit ranch 69 acres — "The Honey Moon Place." Send for my booklet entitled "Homeselling." It tells you all you want to know about that great British Columbia country, and there are scores of questions answered.

The new booklet, "Harris' New method of Apple Culture," tells you how apples can be made to come into commercial bearing the second year. The old way you had to wait five years. Where a farmer made 1,500 dollars he can now make 3,000 dollars per acre. It is free if you will send me the names of ten of your friends or relatives who may be interested in buying fruit lands. I have sold to over 400 people the last four months and would be pleased to send you copies of some of the nice letters that they have written to me, which I received from those who have visited their holdings which I picked out for them.

I refund you your money if after seeing the tract I select for you you are not satisfied with it or with the rest I have to offer. If you cannot go on to your tract and wish to retain your present position for a few years and spend your vacation out there. I will agree to plant it and take care of it for you for 5 years at a small additional cost and give you a share of the profits from crops. I allow you a discount of ten per cent for cash and give you a good commission in case you can secure buyers for me.

My monthly price list for wild and improved tracts will interest the most careful buyer. My next excursion will be leaving Winnipeg June 27th, and I will be pleased to have you join me. Send for my famous "Kootenay Magazine," issued monthly, illustrated and full of good things about that wonderful country. \$2.50 per year, or 25¢ for sample copy. A year's subscription for 20 names and addresses (written plainly) of people interested in B. C. fruit lands.

Write me at once, giving name of a reliable reference, your nationality, amount you wish to invest, and I will forward booklet, map, etc. Address me personally at head office:

Shilo Siflings

Misses Lulu Dial and Elsie Willett have gone to Innisfail to spend Dominion Day.

A pleasant surprise party was sprung on Mrs. H. A. Langley last Tuesday Evening when her numerous friends called on her to bid her farewell. The Ladies Aid presented Mrs. Langley with a beautiful table spread. A very enjoyable evening was spent. Mrs. Langley is leaving for points in Washington U.S.A.

Another surpris party took place last Friday evening at the residence of Mrs. J. R. Langley when a nice crowd assembled for a pleasant evening and to bid farewell to Miss. Elsie Willett, the Caroline school teacher. Many games were enjoyed and a good time spent.

Mr. William Warmick of Caroline met with an accident east of Innisfail last week. He was on top of a barn which he and his brother were building when the building collapsed and Mr. Warmick fell 42 feet. He was not badly hurt and is doing fine.

Miss. Maud. Miller spent the week end the guest of Miss. Lulu Dial.

Mr. C. L. Hall and Mr. J. N. Macdonald spent the evening with Mr. W. H. Devore last Wednesday. Mr. Merle Miller of Spokane is visiting with his parents.

We are all glad to see Mr. Tom. Berry the late Proprietor of the Raven Hotel back with us again. "He knew he would come back".

The Shilo School Board met last Friday evening at the School House. There were present Mr. W. H. Devore, Chairman, Mr. R. F. Dial, Sec. Treas. and Arthur Bowers.

We hear we have a new Preacher in this district and he is to preach his first sermon next Sunday.

Lots of rain has put the crops in first class shape and everything looks good out here.

A Shorter Way

To America

Good progress is being made with a scheme for the construction of a port on the South-East Coast of Labrador, to which 18-knot steamers could easily run from

Liverpool in a little over three days. The distance from Quebec is about 800 miles, but a railway

The Control of Insect Pests in Canada

The Division of Entomology of the Experimental Farms Branch of the Dominion Department of Agriculture, Ottawa, has recently issued a bulletin by Dr. C. Gordon Hewitt, Dominion Entomologist, on "The Control of Insect Pests in Canada."

An account is given of the history of the war against insect pests in Canada and of the manner in which

insect pests have invaded the country as it has been gradually opened up and cultivated. The manner in which the Dominion and Provincial governments are endeavouring by legislation and other means to prevent the introduction of insect pests into Canada and the increase and spread of those pests already here is described. An interesting summary of the various lines of work undertaken and carried on by the Division of Entomology at Ottawa is given and the general public will no doubt be surprised at the many problems which come within the scope of the Entomologists who are called upon to deal with insects in their relations to all the varied activities of man; insects affecting farm crops, fruit growing, forest and shade trees; insects attacking man's possessions and infesting houses, attacking domestic animals and finally affecting the health of man. All insects, however, are not injurious and the work of the Entomologist includes bees and beekeeping and the study of parasitic and other enemies which may be of assistance in obtaining control of insect pests.

Copies of this publication, Bulletin No. 9 (Second Series), may be obtained from the Publications Branch, Department of Agriculture, Ottawa.

Special Message From The General

"In the light or in the dark, you may count upon your General to trust in God and go forward!"

[By Cable.]

London, England,

June 4, 1912.

My Dear Comrades.—If the unexpected blow regarding the loss of my eyesight has not actually fallen, as the newspapers have stated, it is hovering dangerously near. Instead of the restoration of sight for which I had hoped, and for which I know you have so earnestly prayed, the Doctors tell me I am on the very eve of entire darkness.

In a few brief hours my comrades may be under the painful compulsion of announcing that The General is hopelessly blind. In that event, what an indescribably painful loss will be mine, never again to see light of day, or behold the countenances of my friends, or look into the sympathetic eyes of my comrades; never again to witness that which for over sixty years has been to me the sight of sights—men and women kneeling at the Mercy Seat.

Then too I have lost the hope of being able with any facility to write, while it will be an absolute impossibility to read well.

Pile up all my losses, they are many and serious, I admit; but look at the mercies left me!

First there is my confidence in God. I am not going to allow the existence of a few things which are in conflict with my Judgment to interfere with my confidence in His wisdom—confidence that is inspired by lifelong knowledge of His loving care.

Then, I have not lost the assurance of my own happy relations with my Heavenly Father. I have not lost the confidence and love of my own dear people. I have not lost the inestimable blessing of life.

I want the continued loyalty of my own people, and the heartier cooperation of all men and women whose hearts are fired with the same purpose as my own.

In a few weeks time I hope to be found once more on the battlefield.

Anyway my dear comrades, in the light or in the dark, you may count upon your General to trust in God and go forward!

William Booth.

Forestry on the Pacific Coast

Ottawa, June 27.—The Canadian Forestry Association will this year follow the plan of 1906, and hold a big Autumn Forestry Convention in Victoria B. C. The date fixed is Sept. 4-6. This is upon the invitation of the Government of the Province. Hon. Richard McBride, the Premier and Hon. W. R. Ross, Minister of Lands, are forwarding the plans, so as to make it one of the largest things of the kind held in Canada. The Secretary, Mr. James Lawler, of Ottawa, is now consulting with these gentlemen and Mr. John Hendry, of Vancouver, the President of the Association, in regard to final details.

CAN NOW WORK WITH COMFORT

THE OLD PAINS AND ACHEs ARE
NOW ONLY A MEMORY

Tells of the Wonderful Benefits Obtained From

DR. CHASE'S KIDNEY-LIVER PILLS

Like many another Newfoundlander living far from doctors, Mr. Stone feels unbounded gratitude for the benefits obtained from the use of Dr. Chase's Kidney-Liver Pills.

For years he had suffered from a congested condition of the liver and kidneys, with headaches, backaches, pains in limbs and body. Words fail to describe his sufferings as well as the gratitude he wants to express for the cure.

Mr. Alex J. Stone, West Point, Nfld., writes:—"I suppose you thought I had forgotten all about you when I got Dr. Chase's Kidney-Liver Pills, but I haven't. You must excuse mistakes, for like many Newfoundland men I have not much education, but I want to thank you many times for your medicine."

"I cannot tell you what I suffered from liver and kidney derangements, indigestion and constipation, nor can I find words to express how much good this medicine has done me. I feel better than I have for five years and have given some of these Pills to friends, who tell me they have done them a wonderful lot of good. I want to express my heartfelt gratitude for the benefit derived from the great medicine."

Dr. Chase's Kidney-Liver Pills, one pill a dose, 25c. a box, at all dealers or Edmanson, Bates & Co., Limited, Toronto.

Death Roll of Alps

The number of fatalities due to mountain climbing in Switzerland has rapidly increased during recent years. According to an authentic compilation, ninety deaths were due to mountain climbing in the Swiss and Italian Alps during the year ended December 1, 1910. To the above figures must be added eighty serious accidents, four of which had fatal effects. The causes of the accidents were ascending mountain peaks without a guide, landslides, defects in the halter (rope) and sudden setting in of fog. For many years the English have had the greatest number of victims to lament. This year, however, the Swiss are at the head of the list, followed by the Germans, English, Australians and Italians respectively. Consular Report.

Extermination of Rats and Mice

If it were generally known that there is no trouble to rid a house, barn or building of rats and mice by the use of Gillett's Lye, it is doubtful if the article could be made as fast as it would be used for this purpose alone. The process connected with using it is very simple, the plan being to sprinkle a little of the article in and around the holes made by these pests in floors, partitions, etc. In addition to this it is well to use a thin piece of board about a foot square, or even smaller, and make a complete circle of the Lye on the board about a quarter of an inch deep, and inside of the circle place some meat or cheese. In endeavoring to get at the bait the feet of the rats and mice will be burned and the whole colony, whether large or small, will immediately disappear from the premises.

The plan is worth trying, but the good kind—Gillett's Lye—should be procured. Refuse the many cheap imitations and substitutes.

The Most Ancient Map

After some controversy about the age of various maps that have come down to us from ancient time it has been finally determined by savants that the oldest is in the form of a mosaic in a Byzantine church at Malaia, in Palestine. It is about 1,700 years old and purports to be a map of a part of the Holy Land.

'Tis Ever Thus

What sort of a baseball pitcher is he? Great when he wins a game; punk when he loses one.

Pills for Nervous Troubles.—The stomach is the centre of the nervous system, and when the stomach suspends healthy action the result is manifest in disturbances of the nerves. If allowed to persist, nervous debility, a dangerous ailment, may ensue. The first consideration is to restore the stomach to proper action, and there is no readier remedy for this than Parmelec's Vegetable Pills. Thousands can attest the virtue of these pills in curing nervous disorders.

CHIEF OF THE JURY OF AWARDS

Prof. W. H. Fairford Chosen as Chairman of the Judges of the Dry-Farming Exposition

Lethbridge, Alta.—Prof. W. H. Fairford, Superintendent of the Dominion Experiment Station on the easterly outskirts of Lethbridge, has been selected by the Canadian Board of Control as chief of the jury of awards for the International Dry Farmed Products Exposition, October 21-26th next.

Prof. Fairford is one of the best known and most successful experiment farm directors in Canada, and in the growing of wheat, oats, barley, corn and alfalfa he has years of study and has produced wonderful results through rotation of crops. He ranks as one of the greatest practical demonstrators of modern agriculture in Canada and he is a recognized authority on all matters pertaining to crops, tillage and seed. He is a graduate and former member of the faculty of Colorado Agricultural College.

The Ultimate Victim

The grocer stood in his little store; He had washed his windows and swept his floor.

And he said, I wonder who'll make a car.

On the cost of things this morning.

No odds what's wrong, and no odds what's right.

My load of worry is never light.

For somebody comes in and wants to fight.

On the cost of things each morning.

These fresh-laid eggs, do you understand.

Were bought and bargained from hand to hand.

And the price went up as the eggs went—and.

I am blamed for that this morning. This hour, this sugar, this bag of salt? They came by routes that made prices vault.

For the cost of things this morning.

The people rage and papers howl, The reformers shout and the voters growl.

And the housewife's face wears a bitter scowl.

When she orders things each morning.

Producer, railroad and middleman Each makes the product pay all it can.

And the folks put me in the roasting pan.

For the cost of things each morning.

—Chicago Post

Keep Minard's Liniment in the house.

Understood the Language

An Indianapolis public school teacher some time ago, she relates, received in her room a small boy from the Kentucky-Tennessee borderland, and she set about teaching him the intricacies of addition. She found he could run up or down a column of figures readily, but she could not make him understand how to "carry" from one column to another when the total was more than nine.

Finally the teacher called on one of the little girls in the class and told her she would give her a dime if she could make the newcomer understand the process. Next day the little girl called to claim the money.

How did you make him see it so quickly? inquired the teacher.

Oh, I told him when he got a number of two figures to put down the one on the right and tote the other across, and he knew what I meant right away.—Indianapolis News.

In the treatment of summer complaints the most effective remedy that can be used is Dr. J. D. Kellogg's Dysentery Cordial. It is a standard preparation, and many people employ it in preference to other preparations. It is a highly concentrated medicine and its sedative and curative qualities are beyond question. It has been a popular medicine for many years and thousands can attest its superior qualities in overcoming dysentery and kindred complaints.

Rare Roman Coins

Coin buried for 1,600 years came to light at Domplierville, France, when a farmer was levelling his yard. These date from the Gallo-Roman period and number about 2,800. Of these some 2,000 are silver and the rest bronze. They had been buried in an earthenware vessel placed in a stone built hiding place. As to the silver coins, these are in a very good state of preservation and are fine specimens, but the bronze coins suffered much from the air. A number of rare pieces were found in the collection coming from the reigns of some obscure Roman emperors of the late period. The oldest coins date from the Emperor Trajan (63 to 117 A.D.) and the most recent from Diocletian. It is thought that the coins were buried about 315 A.D.

Dear Clara, wrote the young man; pardon me, but I'm getting so forgetful, I proposed to you last night, but really forgot whether you said Yes or No.

Dear Will, she replied by note, so glad to hear from you. I know I said No to someone last night, but I have forgotten just who it was.

Willie—Pa, what is a phenomenon? Papa—A phenomenon is your mother's idea of a model husband.

The Prussian city of Godesburg will spend nearly \$1,000,000 to build a municipal slaughter house.

ST. VITUS DANCE IN YOUNG CHILDREN

A Striking Example of its Cure By the Tonic Treatment

St. Vitus dance is the commonest form of nervous trouble that afflicts young children, because of the great demand made on the body by growth and development, and there is an added strain caused by study. It is when these demands become so great that they impoverish the blood, and the nerves fail to receive their full supply of nourishment, that the nervous debility which leads to St. Vitus dance begins.

The remarkable success of Dr. Williams' Pink Pills in curing St. Vitus dance should lead parents to give this great blood-building medicine to their children at the first signs of the approach of the disease. Pallor, listlessness, inattention, restlessness and irritability are all symptoms which early show that the blood and nerves are failing to meet the demand upon them. Here is proof of the power of Dr. Williams' Pink Pills to cure this trouble. Mrs. J. W. Towns, Oshawa, Ont., says:—"At the age of eleven my daughter was attacked with St. Vitus dance, and despite all we did for her the trouble grew rapidly worse. Soon she was scarcely able to walk, her body and limbs jerked and trembled so, and she was quite unable to feed herself. When she would lie down she would be unable to rise without assistance. As nothing was helping her I wrote a friend whose daughter had been similarly affected, and she advised the use of Dr. Williams' Pink Pills, which had cured her child. I at once got a supply of the Pills, and even the use of the first box seemed to show an improvement. By the time five boxes were used she was completely cured and has had no return of the trouble since." Sold by all medicine dealers or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Man as Quadruped

A prominent German biologist maintains that man made a serious mistake when in his development he made a biped of himself. He contends that the backbone structure of man was designed for a horizontal position and that many of the ills which he is subject to are due to this departure.

The Cautious Race

Sandy Hoyle, negro janitor of The Advocate, listened to a discussion by the foreman and the intelligent compositor on the commercial possibilities of the aeroplane. Sandy seemed deeply interested, but at the close of the conversation he shook his head solemnly and said:

White folks may do great things with them flying-machines, but one thing I know for sutt'n—they won't never need no Jim Crow on 'em.—Greenfield Advocate.

Remove the First Cause of Trouble

Special directions for women with every box. Sold everywhere. 25c.

No Chewing Gum Famine

The United States derives practically all of its 6,500,000 pounds of chicle annually imported (for chewing gum) from Mexico and Central America. Evidently tropical South America would also afford a large supply. Only one business man in Lima appears to deal in chicle gum. He stated that he always had about five hundred pounds, more or less, in stock. His selling price is 4.50 soles (\$2.189) per arroba (twenty-five pounds), or seventeen soles (\$8.27) per quintal of one hundred pounds.

His supply comes from the department of Piura in northern Peru, where large quantities are said to be produced. He was unable to give exact figures as to the amount of production, but stated that he knew of shipments of one hundred quintals having been made from Piura, and that he believes that the supply is still abundant.

The gum is used here and in the department of Piura by makers of straw hats for giving a certain color and shine to the straw. It is also used as a varnish of an attractive yellow cream color for renewing so-called Panama hats.

Minard's Liniment used by Physicians

His Object

The solicitor was drawing up Enpec's will. I hereby bequeath all my property to my wife, dictated Enpec. Got that down?

Yes, answered the attorney.

On condition, continued Enpec, that she marries within a year.

But why that condition? asked the man of the law.

Because, answered the meek and willing testator. I want somebody to be sorry that I died.

Vienna's Gas Supply

The Vienna city council has purchased for \$900,000, the last remaining gas works owned by the English company which originally furnished the whole gas supply of the Austrian capital.

Cumbersome Money

One of the largest and most cumbersome forms of money is found in Central Africa, where the natives use a cruciform ingot of copper ore over ten inches long. It is heavy enough to be a formidable weapon.

Special Notice

Don't Say You Did Not See It

Upon looking over our Subscription books we find there are a large number of subscribers in arrears, some for two years, some for one year, and some for six months. Our subscription price to this paper is only one dollar per year. IN ADVANCE, but if we do not hear from the subscribers who are in arrears with their subscriptions within a short time we are going to take your name off the list. If you still intend taking our paper look up your receipts in a hurry, either send money order, or call and settle. We are doing this for the following reasons:

Ink costs money, paper costs money, and time means money to us. HURRY, and don't forget your receipts, if you have not got them, and are positively sure as to when your subscription expired kindly let us know as well as sending your money. This is the first and probably the last notice you will receive from us in regards to your subscription. REMEMBER if we were to run a paper for very long on wind alone, we would soon go bust.

fully decorated with various emblems of the Orange Order. Rev. Bro. F. E. Davies preached an inspiring sermon from Isaiah 8-20. "To the law and to the testimony, if they speak not according to this word, surely there is no morning for them."

A pleasing feature was the presence of the Rev. Bro. Washburn who read the Scripture Lessons. Mrs. Davies sang a Solo, and the Chure Orchestra led the congregational singing which was of a hearty character. During the Service, the new Banner which has just been purchased by the Bowden Orangemen, was displayed, and much admired. It is a work of art. On the front side is a beautiful painting depicting King William 3rd. crossing the River Boyne and on the reverse side is a picture of the Open Bible with Crown, surrounded by two mottoes: "The Protestant Faith we will maintain" and "Our guide the open bible".

At the close of the service the Brethren marched back to the Lodge Room where several members expressed their appreciation of the Service and the Rev. Bro. Washburn made an interesting speech.

A hearty vote of thanks was accorded Rev. Bro. Davies for his very able sermon, and the Lodge closed in due form.
